† It will be observed that the net receipts brought to account in the year 1898-9, viz. - - - - £21,556,
exceeded the Exchequer Receipts (*see* Table No. 4, p. 9), viz. - - - - - - 20,850,

This difference is due to abnormal Clearances during the last few days of 1898-99 on account of :—

‖ The decrease between 1898 and 1899 is due to the number of men called out in the latter part of 1899 for active service. The number so called out form part of the Regular Army, but the increase in the number of the Regular Army, shown in the previous Table does not correspond with the decrease shown in this Table, because the average strength of the Regular Army for the year is shown, and not the number at a given date, as in the case of the Army Reserve.

† It will be observed that the net receipts brought to account in the year 1898–9, viz. - - - 21,
exceeded the Exchequer Receipts (*see* Table No. 4, p. 8), viz. - - - - - - - - 20,

by - - - - -

This difference is due to abnormal Clearances during the last few days of 1898–99 on account of :—

(*b*.) Tobacco, estimated at - - - - - - - - - - -	610,000
Total - - -	710,000

Such clearances were made in anticipation of a possible increase of the duty on these articles. The am thus collected in 1898–99, which properly belonged to 1899–1900, were accordingly held over and not pai the Exchequer until after 31st March 1899.

NOTE.—*The figures in the above Table (No. 6) give the amount of the actual* net receipts *derived from the Customs, Excise, Estate, &c., Duties, Stamps, and Taxes due to the Exchequer; and do not therefore correspond exactly with the figures in Tables Nos. 2 and 4, which give the payments made into the Exchequer* "Exchequer Receipts," *on account of these duties in each year.*

* Prior to 1894–5 all Death Duties were included under the general head of Stamps.

† Exclusive of proportion of Duty collected for Local Authorities (*see* Table No. 14, pp. 36–7).

¶ The net receipt of Property and Income Tax represents the amount of Tax actually collected within the year (irrespective of the year of assessment) less the amount of Tax refunded, &c., within the year (see note § on page 59). The amounts under the several schedules show the approximate net receipt of the Tax based on the assessments of property and income under each schedule.

	TOTAL		—	—	153,000

NOTE.—*The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.*

* Ultimate estimated loss. ‖ Yield in 1892-3. ¶ Included a small estimate of sums yet to be reported.

† The sums inserted here are equivalent to the gain in 1894-5 (shown in that year), when the duty was correspondingly increased. But notwithstanding the decrease of the rate of duty there was an increase of 19,661*l.* in the Customs Revenue from Foreign Spirits, and of 334,000*l.* in the Excise Revenue from Spirits.

NOTE.—Most British Joint Stock Banks are registered under "the Companies' Act, 1862, and consequently, the bulk of the Capital of such concerns is included in the figures given in the above Tables. With the exception of Municipal Tramways, the majority of the Companies working tramways in the United Kingdom are registered under the Companies' Acts, and their Capital is accordingly also included. Railway Companies in the United Kingdom are not incorporated under the Companies' Acts, but by special Acts of Parliament, as they need powers beyond those conferred by registration under the Companies' Acts. Their Capital is, therefore, not comprised in these Tables.

* The Stannaries Court was abolished on the 1st April, 1897, under Act 59 and 60 Vict. c. 45.

* The figures compiled for years up to 31st July, 1901, relate to the Evening Schools recognised under the Evening Continuation School Code of the late Education Department. They are not therefore comparable with the figures included in this table, which relate to Evening Schools as defined in the Board of Education's "Regulations for Technical Schools, etc.," (Ch. 2). The year ended 31st July, 1902 was a transitional year.

† Students in respect of whom grants were paid for attendance at more than one School are counted once for each School; the number of individual Students in respect of whom grants were paid was therefore less than the number given in the Table.

† The numbers given are the total numbers returned from each Union as relieved on the 1st January or the 1st July including those discharged from and admitted to the Casual Wards during those days. It is probable that they includes a certain number who received relief in more than one Union on the same day.

The figures in this column represent the net total of persons relieved, after making the necessary deduction in respect of certain persons counted twice in the preceding columns, such, for instance, as persons who received indoor as well as outdoor relief on the days mentioned.

‖ the total number of insane paupers returned as receiving outdoor relief on the 1st January in 1893, the number shown as being in county and borough asylums, etc., is taken from the Reports of the Lunacy Commissioners.

e numbers of insane paupers in receipt of Outdoor relief on the 1st July cannot be distinguished from those in county ad borough asylums, etc., for the years previous to 1894. The numbers are therefore only included in the column headed Net total of persons relieved."

[Compiled from the "Annual Statement of the Trade of the United Kingdom."]

‡ The apparent changes in the area under grass in 1906 as compared with previous years are largely due to greater care in classification in the Irish Agricultural Returns and to the transfer of some grass lands from one category to another, while certain areas previously included as pasture are now included in a new item, "grazed mountain land."

Note.—Most British Joint Stock Banks are registered under "the Companies' Act, 1862, and consequently, the bulk of the Capital of such concerns is included in the figures given in the above Tables. With the exception of Municipal Tramways, the majority of the Companies working tramways in the United Kingdom are registered under the Companies' Acts, and their Capital is accordingly also included. Railway Companies in the United Kingdom are not incorporated under the Companies' Acts, but by special Acts of Parliament, as they need powers beyond those conferred by registration under the Companies' Acts. Their Capital is, therefore, not comprised in these Tables.

* The Stannaries Court was abolished on the 1st April, 1897, under Act 59 and 60 Vict. c. 45.

The Reserve Division strength is that on the 1st July. The Militia Reserve disappeared before the inspection of 1907. ‡ At the date of inspection. § On the 1st November in each year.
‖ The decrease between 1898 and 1899 is due to the number of men called out in the latter part of 1899 for active service. The number so called out form part of the Regular Army, but the increase in the number of the Regular Army, shown in the previous Table does not correspond with the decrease shown in this Table, because the average strength of the Regular Army for the year is shown and not the number at a given date as in the case of the Army Reserve.

† No figures are available for years prior to the year ended 31st July, 1901. The first minute providing for grants on account of the education of defective and epileptic children was dated 26th February, 1900.

‡ For years up to 31st July, 1903, the figures give the number of Scholars on account of whom grant was claimed. This explains the decrease after 1903 in the figures given in the last two columns.

§ For these years, boys and girls of the age of 15 and over are included in the two preceding columns.

* For years up to 31st July, 1904, reference should be made to the Statistics relating to Secondary Schools and Schools of Science contained in the Volumes of Statistics and the Annual Reports published by the Board of Education. The figures are not given here, because in many cases they include particulars which cannot properly be compared with those given in this table. The term "Secondary School" bears the meaning assigned to it in the Board of Education's "Regulations for Secondary Schools."
